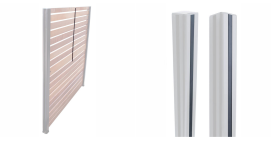
Screen Up Freestanding Brace/Cover Strip

Screen Up / Screen Up Freestanding

• Use as brace strip for screens wider than 1200mm
• Use as cover strip on Freestanding Posts
• Long-life powder coated aluminium



DUAL USE STRIP

Whites Screen Up Freestanding Brace/Cover Strip has two uses:

- as a bracing strip for screens wider than 1200mm to stabilise timber and keep the screen looking good for years to come
- as a cover strip on 2-way and 3-way posts when the channel is not used for screening, e.g. as an end post (note: each post is supplied with sufficient cover strips, however, there may be rare instances where installation requires an additional cover strip)

Code	Product Description	Size
16855	Screen Up Brace/Cover Strip	1970mm x 19mm

Handy Hints:

• We recommend the use of 15mm button head screws for attaching brace strip to timber slats.
