

Aviary Mesh - Medium Birds

Fencing Solutions / Aviaries & Cages

- Ideal for most medium birds
- Hot dip galvanised after manufacture for maximum corrosion protection
- Standard 12mm x 25mm (½" x 1") aperture keeps vermin out

12MM X 25MM (½" X 1") AND 12MM X 12MM (½" X ½") APERTURE

Whites Aviary Mesh is rectangular aperture mesh ideal for most medium sized birds such as Peachface, Cockatiels, African Love Birds and smaller Parrots.

The rectangular shape allows very good visibility into the aviary. It is also suitable for many uses beyond aviary making.

Suggested breeds are a guide only - actual mesh used will also depend on the design and construction of your cage, aviary or pen. Be sure to take into account wire diameter, aperture and roll size when selecting mesh for a project.

Code	Product Description	Height	Aperture	Wire Dia.
20828	Aviary Mesh - Medium bird - 30m	90cm	25mm x 12mm	1.24mm
20829	Aviary Mesh - Medium bird - 30m	120cm	25mm x 12mm	1.24mm
20952	Aviary Mesh - Medium bird - 5m HandyPak	90cm	25mm x 12mm	1.24mm
20953	Aviary Mesh - Medium bird - 10m HandyPak	90cm	25mm x 12mm	1.24mm
20965	Aviary Mesh - Medium bird - 10m HandyPak	120cm	12mm x 12mm	1.24mm

Note: It is recommended that new galvanised wire mesh used in aviaries and pet cages be treated to remove excess zinc that could possibly harm the pets. Shave off any zinc spikes with a utility knife. The mesh should then be scrubbed with a mild solution of vinegar (2 cups in a bucket of water), and rinsed with clean water.
