TOUGH AND COMPACT BATTERY

O'Briens Battery Energiser 15/120 is the right option where there is unreliable or no mains power available.

It is an ideal energiser to use for strip grazing and providing portable power for short term animal control.

Suitable for fencing horses and cattle in small paddocks or farms, it will power up to 2km of fencing.

Easy to use and install, it simply hangs on hot wire or tape, or can be screwed to a post.

Supplied with 12 volt D.C. lead, fence lead and earth lead. Operates on external 12 volt battery (or 4 x D cells internally). Battery not included.

Code	Product Description	Colour
