

Bird Netting

Fencing Solutions / Pens & Enclosures

- Ideal for bird enclosures, vermin barrier, and craft
- 13mm (1/2") hex aperture
- Wire diameter is 0.56mm for light duty applications
- Easy to shape and mould

13MM (1/2") HEX APERTURE

Whites Bird Netting is an economical netting with a wire diameter of 0.56mm and a small hexagon aperture of 13mm. It is light duty, making it ideal for use in bird enclosures, as a guard against vermin, and also popular for craft use.

It is made from galvanised steel wire for strength and additional protection from the weather.

It comes standard in 50m packs and is available in convenient 2m, 5m and 10m packs for smaller jobs.

Code	Product Description	Height
60000	Bird Netting - 2m HandyPak	90cm
60001	Bird Netting - 5m HandyPak	90cm
60002	Bird Netting - 10m HandyPak	90cm
10432	Bird Netting - 50m	30cm
10434	Bird Netting - 50m	60cm
10435	Bird Netting - 50m	90cm
10436	Bird Netting - 50m	120cm
10437	Bird Netting - 50m	180cm

Note: It is recommended that new galvanised wire mesh used in aviaries and pet cages be treated to remove excess zinc that could possibly harm the pets. Shave off any zinc spikes with a utility knife. The mesh should then be scrubbed with a mild solution of vinegar (2 cups in a bucket of water), and rinsed with clean water.

Handy Hint:

- Be sure to take into account the wire diameter, aperture and roll size when selecting mesh for a

project.
