

Tomato Cages

Plant Support / Cages & Frames

- Easy to assemble
- PVC coated steel tube stakes
- Clip-on supports
- Green colour blends well into your garden

INSTALLING TOMATO CAGE
Place one stake into the ground at the base of the cage, spacing evenly to form a square cage.
Push second stake into the ground opposite the first to form the cage.

TOMATO CAGES

Whites Tomato Cages are easy to assemble plant trainers, perfect for supporting growing lush tomatoes in any garden.

Simply drive the stakes into the garden soil in a well-lit area, clip the supports in place and you have a cage that will provide strong support for growing tomato vines.

Available in two heights; 1.6m and 1.9m.

Code	Product Description	Size
18298	Tomato Cage	1.6m
18302	Tomato Cage - Jumbo	1.9m
