

Wire Core Clothesline

Outdoor Essentials / Clothesline

- Strong, flexible, taut when installed
- Attractively colour-matched
- 30m length - fits most retractable and folding clotheslines
- 60m length - fits most rotary, retractable and folding clotheslines
- 200m bulk roll available

WEATHER RESISTANT, FLEXIBLE AND DURABLE

Whites Wire-Core Clothesline is a strong, steel wire line that has been plastic coated to provide a clean, neat finish. The wire core provides strength and flexibility.

The PVC outer layer provides an attractive 'forest green' colour-matched finish, and houses the inner wire core that assists the line to be taut when installed.

The 30m and 60m lengths are designed to fit most retractable and folding clotheslines; a bulk roll of 200m is also available.

Code	Product Description	Size
23510	Wire Core Clothesline - Forest Green	200m
